On Israel – a Genealogy and Hermeneutic, of a Subject

By Shomit Sirohi

I. Genealogical Philology

A simple Hebrew family, and their spiritual happiness with a revolutionary group of leaders called Zionism – Spinoza shifted to Spi, noza, which becomes the spiral road and natured Jett-zeit and Alif and Aleph formalism which is complexly changing into revolution and spiritualized into forms of roads, and complex roads which have Spinozan details of Nature and Letter, Number.

II. A Archaeological Exercise in Aesthetic Regimes

The voice, the audio, and the video, cinema process is with nature which means a well-natured people with a cinematic nature, and even latterly people around in the sense of cinema and voice which is also then a formal presentation of in a past a type of broken vessel and hardships which transform to a Hebrew city and Israel – its natural infinity then is also to capture – 'At first the genealogy seems to limited to Spinoza, but then in fact it is also the simple Spinoza which is so many things about Israel, and Tel Aviv, that in fact there is even dancing in houses and conversations of families, and spiritual Rabbinical lives and all of this then is the wonder of Hassadim – it is that revolution called God's revenge but then also a spiritual Happiness in the Hebrew world which can also be just called nature and natured nature – even women who are black sitting and talking all night over rum, a lot of this Jewish festivity and a lot of Marxist jokes – laa ilaha – the Palestinian families are over – just that party then all over the place – take a left and meet Professor Funduski who is an old man teaching Arabic and talking about it.'

III. Criss-Cross Coinage – is it Pure Shekel and divinity yet? For the Zionists to divine.

In fact one sketch goes to the Shekel which is abstracted also of course to one level in the economy which then is also pure Shekel laws in the culture and then coinage capitalism with city architecture and monasteries – enough evidence then of divine management as in fact daily life images of Culture with the Prophet Sirohi.
